

MILANO COLLECTION

MILANO COLLECTION BY LUCA SCACCHETTI

Sobrio e, per quanto possa concedere la vita, anche lineare, il percorso di Scacchetti: maestro di competenze espresse in quattro decenni di vita accademica e professionale, nella quale manifesta, fin dagli esordi milanesi, solide radici etiche. La sua responsabile disciplina di condotta, sempre perseguita e mai tradita, è stata riconosciuta ed apprezzata anche altrove, in altri mercati, in altre culture. "Il disegno mi ha sempre affascinato, soprattutto quello a mano, di getto, l'appunto, l'annotazione, lo schizzo di progetto. Credo esista un filo conduttore diretto tra pensiero e mano quando schizziamo. Fare, e fare in termini concreti: disegno sì, ma disegno solo come "promessa" di realizzare, come previsione, come progetto." Pervaso da tale sorta di frenesia del fare, Scacchetti si misura con diverse scale di progetto, dai piani urbanistici alle architetture, dagli interni al custom made fino al design.

Più che autore, Scacchetti si sentiva interprete: "traduco quello che i luoghi mi danno in una mia lingua. Non credo alle invenzioni ma in un lento e paziente lavoro di traduzione; e per tradurre bisogna conoscere, leggere e rileggere i luoghi, entrarci, sprofondarci, perdersi, e alla fine ci s'innamora e si diventa tutt'uno con essi; Shanghai, Lecce, Roma, Baku, Chisinau, il Kazakistan, la Russia, il Giappone, la Francia o la campagna irlandese. E' ovvio che tra le mie ondivaghe patrie generative di progetto, una e una sola è fissa e

Sober and, as much as life can permit, linear too, Scacchetti's path: master of expertise expressed in four decades of academic and professional life, in which he manifested, since the beginning in Milano, strong ethical roots. His responsible discipline of conduct, always pursued and never betrayed, has been recognized and appreciated even elsewhere, in other markets, in other cultures.

"The drawing has always fascinated me, especially the one by hand, straight off, the note, the sketch of a project. I believe there is a direct common thread between thought and hand when we sketch. To do, and to do in concrete terms: yes drawing, but drawing only as "promise" of realization, as prediction, as project". Permeated by such sort of frenzy to create, Scacchetti measures himself with different scales of project, from city plans to architectures, from the interiors to the custom made until the design.

More than an author, Scacchetti felt like an interpreter: "I translate what the places give me in my own language. I don't believe in inventions but in a slow and patient work of translation; and to translate you need to know, read and reread the places, enter in them, sink into them, get lost in them, and in the end you fall in love and become one with them; Shanghai, Lecce, Roma, Baku, Chisinau, Kazakhstan, Russia, Japan, France or the Irish countryside. It is obvious that among my variable homelands generative of project, one

tanto indispensabile da confondersi e sovrapporsi alle altre: Milano, la mia città, la madre di tutti i miei progetti." Lo Studio Scacchetti Associati si fonda e persegue le orme del suo fondatore e maestro; con la sua educazione s'identifica e prova lo stesso suo sentire: "la necessità di porsi in continuità con chi, indipendentemente dai tempi, ha figliato in questa città, e di riconoscere inconsistente ogni attività di progetto separata dal luogo o riferita ad una "malsana" creatività personale. Il che non significa che non si possa fare, significa semplicemente che a me non interessa."

and one only is unmoveable and so indispensable to blend and overlap the others: Milano, my city, mother of all my projects." Studio Scacchetti Associated is founded on and follows the steps of its founder and master; it identifies with his education and feels his same feeling: "the need to be in continuity with who, independently from the time, has designed in this city, and to recognize as inconsistent every activity of design separated from the place or referred to an "unhealthy" personal creativity. That does not mean that it cannot be done, it simply means that I am not interested in it."

OAK *design* nasce come divisione di OAK, per soddisfare le aspettative di qualità, prestigio e lusso contemporaneo. Le collezioni OAK *design* incontrano il gusto di clienti amanti di un arredamento moderno, elegante nelle forme e originale, in grado di creare ambienti raffinati e ricercati. Sono prodotti rivolti ad una casa moderna che non rinuncia alla qualità dei dettagli, a finiture eccellenti, ai materiali più preziosi. Le nostre collezioni moderne non cercano soltanto la forma, ma anche il contenuto, per questo motivo sono al di sopra delle mode passeggiere: sono senza tempo, classiche nella loro modernità, sempre attuali grazie al loro carattere trasversale. I dettagli sono ciò che contraddistingue gli arredi OAK *design*. La scelta attenta di materiali pregiati e finiture sofisticate dà valore ai prodotti e ai progetti in cui vengono inseriti.

OAK *design* is born as a division of OAK, to satisfy the expectations of quality, prestige and contemporary luxury. OAK *design* collections meet the taste of clients who love a modern furnishing, elegant in its forms and original, able to create refined and studied spaces. These products are addressed to a modern home that does not give up the quality of the details, the excellent finishings, the most precious materials. Our modern collections do not only look for form, but also for contents, for this reason they are above the passing trends: they are timeless, classic in their modernity, always up-to-date thanks to their transversal character. Details are what distinguish OAK *design* furnishings. The careful choice of fine materials and sophisticated finishings gives value to the products and to the projects in which they are included.
